

Been in an accident and don't know where to turn?

Nationally Recognized Virginia Attorney Exposes The Truth About Lawyer Advertising And Insurance Company Tricks

“Free information for Northern Virginia accident victims before you hire an attorney or talk to the insurance company.”

(Fairfax, VA)
Personal injury attorney Ben Glass, says that he is “sick and tired of car insurance companies taking advantage of accident victims before they have had a chance to learn their rights under Virginia law.” Glass is also fed up with “lawyer advertising that not only gives no useful information but makes the civil justice system

look like a national lottery.” (It isn't. Virginia car accident lawsuits are tough business).

Glass wrote these books and recorded audio CD's because when someone is hurt in an accident there are usually several things going on all at the same time and, until now, consumers had nowhere else to turn. Many accident victims are:

- Worried who will pay the medical bills.
- Being asked to “sign a few forms” by the pesky insurance adjustor.
- Concerned about losing time from work.
- Finding lawyer ads that promise “no fee if no recovery” but providing no real information.
- Being offered quick cash for “your pain and suffering” by very well trained insurance company adjustors.
- Wondering how their car will be repaired or replaced.
- Confused as to which of their own insurance policies pay what.

Before now, there was no way to get answers to these questions without hiring an attorney. Insurance companies want to “close the deal” before you get

legal advice, but hiring an attorney to get the information may cost you 40% of your total recovery.

Reading these books may help you settle your case without hiring a lawyer.

Glass has written two new books, *The Five Deadly Sins that can Wreck Your Virginia Accident Case* and *The Truth about Lawyer Advertising* so that you can get immediate answers to your questions without pressure to settle your claim or hire an attorney. In fact, reading these books and listening to the accompanying audio CDs may help you settle your case without a lawyer! Glass reveals why some cases don't need a lawyer to be settled fairly.

You don't need to have been in an accident to qualify to receive your free books. *The Five Deadly Sins that can Wreck Your Virginia Accident Case* and *The Truth About Lawyer Advertising* is an invaluable guide to hiring an attorney no matter what your legal problems.
